October 15th is here and with it the completion of Tax Year 2018. As we near the 2nd Anniversary of the Tax Cuts and Jobs Act, how is Main Street faring? Chris Smith, Executive Director of the Parity for Main Street Employers will host this event designed to give tax policy experts a better sense of how Main Street did under tax reform and where we are headed. Senator Steve Daines (R-MT) will kick off the lunch event. Dr. Robert Carroll will present new analysis on the taxes pass-through businesses pay under TCJA. He will be joined by David Winston, who will present focus group and polling data on how voters view individually- and family-owned businesses and how they feel they should be taxed. Following their remarks, Martin Sullivan from Tax Notes will moderate a Q&A session featuring Dr. Carroll, David Winston, and Brian Reardon, President of the S Corporation Association.
